

Disclosure of Information on Lead-Based Paint and/or Lead-Based Paint Hazards

Lead Warning Statement

Every purchaser of any interest in residential real property on which a residential dwelling was built prior to 1978 is notified that such property may present exposure to lead from lead-based paint that may place young children at risk of developing lead poisoning. Lead poisoning in young children may produce permanent neurological damage, including learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory. Lead poisoning also poses a particular risk to pregnant women. The seller of any interest in residential real property is required to provide the buyer with any information on lead-based paint hazards from risk assessments or inspections in the seller's possession and notify the buyer of any known lead-based paint hazards. A risk assessment or inspection for possible lead-based paint hazards is recommended prior to purchase.

Omaha Lead Site Focus Area

_____ Initial here if the housing is located in an area of Omaha Nebraska (generally east of 56th Street, south of Read, and north of Harrison Street) which EPA tests have shown may contain concentrations of lead in the soil that may pose an unacceptable risk to human health and the environment (the "Omaha Nebraska Lead Site"). The EPA Omaha Lead Site Focus Area has been included on EPA's Superfund National Priorities List. However, the housing will only become part of the Omaha Lead Site if soils in its yard are tested and contain lead concentrations in excess of applicable EPA action levels. Lead in soil may not be limited to the EPA Omaha Lead Site Focus Area.
